Northstar Dental appears in 25% of AI-generated answers across discovery, comparison, trust, price, and logistics conversations—yet this visibility masks a critical imbalance. The clinic wins patients asking about price (31% visibility) but loses the trust conversation (20% visibility), where patients deciding on a \$8,000–\$12,000 procedure seek reassurance and independent validation. This gap matters because trust queries are where doubt is highest and switching costs are steepest. Your name appears 109 times across all intents, but trust-focused patients encounter Lakeview Dental's messaging nearly as often.

- **You exist in price, comparison, and discovery at similar rates (31%, 25%, 24%), but your visibility in trust stands at 20%.** Patients asking "how much does it cost" encounter your clinic more reliably than those asking "who to trust" in Palomar Dental surgery.
- **Anthropic (Claude) shows you at 13% visibility versus Gemini at 29%.** Your presence is measured and consistent on OpenAI (25%) and Perplexity (28%), but Claude answers about Palomar Dental care rarely name you.
- **Eight competitor-published articles—from Northgate Dental (50 citations) to Bellmont Dental (28 citations)—dominate discovery, trust, and price answers.** These editorials appear neutral but consistently steer patients toward their own networks. Westbrook Dental (217 citations) and Bookimed (134 citations) are the largest citation sources; together they funnel traffic through aggregators, not your site.
- **When we asked the same question three times, the top recommendation changed in 158 of 160 repeated groups—volatility that erodes patient confidence in any single clinic's standing.** This instability works against category leaders and favors aggregators and review sites that claim to synthesize many opinions.
- **Seventeen claims in AI answers are outdated or false, concentrated in pricing and credentials.** Gemini repeats "\$8,000–\$12,000 per arch" in 6 answers when current pricing starts at \$6,900; Perplexity attributes claims you do not make, including a "Price Match Guarantee" you do not offer.

## 02 What patients and travelers are asking

We asked AI assistants 40 questions that real customers ask about dental care in Tijuana, grouped by what the customer is trying to do. Each question was asked 3 times per AI assistant, because AI answers vary between attempts.

### Discovery – Finding options: “what are the best...”

- “I’ve never had anything bigger than a filling done and now I need dental implants. My dentist in the US quoted way more than I can afford, and my sister keeps telling me to look at Tijuana. Where would I even start — which clinics there are actually good?”
- “I’m 68, retired, living on Social Security, and I need a lot of dental work done. Folks at my RV park swear by going to Tijuana. What are the best clinics there for dental implants?”
- “Which dental clinics in Tijuana do Americans actually go to? I keep seeing ads everywhere, but I want to know where people really get dental implants done, not who has the biggest marketing budget.”
- “My mom is 72 and needs full dentures, maybe implants. Her dentist in Arizona quoted \$40,000. I’ve heard Tijuana is popular for this — which clinics should I look into for her? She doesn’t speak Spanish.”
- “I don’t care about getting the absolute cheapest price — I want the best dental clinic in Tijuana, period. Modern equipment, real specialists, the works. Who’s considered top-tier there for dental implants?”
- “I’m thinking about going to Mexico for dental work for the first time and everyone mentions Tijuana. Can you give me a short list of well-regarded clinics there and what each one is known for?”
- “I have a week of vacation coming up and I’m wondering if I could use it to get dental implants done in Tijuana. Which clinics there are used to working with visitors who are only in town for a few days?”
- “Best dentist in Tijuana that gringos use? Asking because the quote I got in the States for dental implants was insane and half of Reddit says to just go to Mexico.”

### Comparison – Comparing shortlisted options head-to-head

- “Compare the top 3 dental clinics in Tijuana for dental implants — prices, guarantees, and what their reviews actually say. I’m trying to narrow down where to go.”
- “How does Northstar Dental in Tijuana compare to other clinics there for dental implants? Is there anywhere better I should be considering?”
- “Is it actually worth traveling to Tijuana for dental implants instead of just paying my dentist at home? Compare what I’d realistically pay and get at a good clinic there versus in the US.”
- “Some clinics in Tijuana look like big corporate operations and others are small family practices. For dental implants, which type tends to be better, and which specific clinics of each kind are well regarded?”
- “I already have a treatment plan from one clinic in Tijuana, but the price seems high for Mexico. Which other clinics there should I get quotes from for dental implants, and how do their prices usually compare?”
- “Among the high-end dental clinics in Tijuana, which one has the best specialists for dental implants? I’d rather pay more for the best surgeon than save a few hundred dollars.”
- “My husband needs dental implants and we’ve narrowed it down to a couple of clinics in Tijuana, but honestly they all look the same online. What actually separates the good clinics there from the mediocre ones, and which come out on top?”
- “Which dental clinic in Tijuana has the best combination of price and reviews for dental implants? Rank a few options for me.”

## Trust & safety – Safety, accreditation, and reviews

- *“Is it safe to get dental work done in Tijuana? I keep reading horror stories online but also tons of success stories. Which clinics there are properly accredited and have US-trained dentists?”*
- *“How do I avoid getting scammed when choosing a dentist in Tijuana? What red flags should I watch for, and which clinics have a solid reputation?”*
- *“Which dental clinics in Tijuana have the best patient reviews from Americans? I want places with a long track record, not a clinic that opened last year.”*
- *“What happens if something goes wrong after I get dental implants in Tijuana and I’m already back home? Do reputable clinics there offer guarantees, and which ones actually honor them?”*
- *“How can I verify a dentist’s credentials in Tijuana before booking dental implants? And which clinics there are known for board-certified specialists?”*
- *“I’m a retiree considering Tijuana for dental work, and my main worry is hygiene and sterilization standards. Are clinics there really up to US standards? Which ones are known for being rigorous about this?”*
- *“My dad wants to get dental implants in Tijuana to save money and I’m worried he’ll pick a bad clinic off a Facebook ad. Which clinics there would you actually trust for an older patient?”*
- *“Some clinics in Tijuana advertise prices for dental implants that seem too good to be true. Are those legit, or is cheap dental work there a ‘you get what you pay for’ situation? Who’s actually reliable?”*

## Price – Costs and transparent pricing

- *“How much does dental implants cost in Tijuana, and which reputable clinics there publish transparent pricing? I don’t want surprise add-ons once I’m already in the chair.”*
- *“What’s the cheapest trustworthy clinic in Tijuana for veneers? Emphasis on trustworthy — I’m on a tight budget, but I don’t want to be redoing this in two years.”*
- *“What’s a realistic all-in budget for getting dental implants in Tijuana — the dental work plus flights and somewhere to stay? And which clinics give fixed quotes up front?”*
- *“I was quoted \$28,000 for dental implants in the US. What would the same treatment cost at a good clinic in Tijuana, and which clinics should I ask for quotes?”*
- *“Do dental clinics in Tijuana offer payment plans or financing for American patients? Which reputable ones make it easiest to pay for dental implants over time?”*
- *“I’m on a fixed retirement income and I need dental implants. Which clinics in Tijuana give seniors the best prices without cutting corners on quality?”*
- *“For dental implants in Tijuana, what does the top end of the market charge versus the budget clinics — and is the expensive tier actually worth it?”*
- *“Beyond the sticker price, what does dental implants in Tijuana really end up costing — extractions, bone grafts, temporaries, follow-up visits? Which clinics are upfront about the full treatment cost?”*

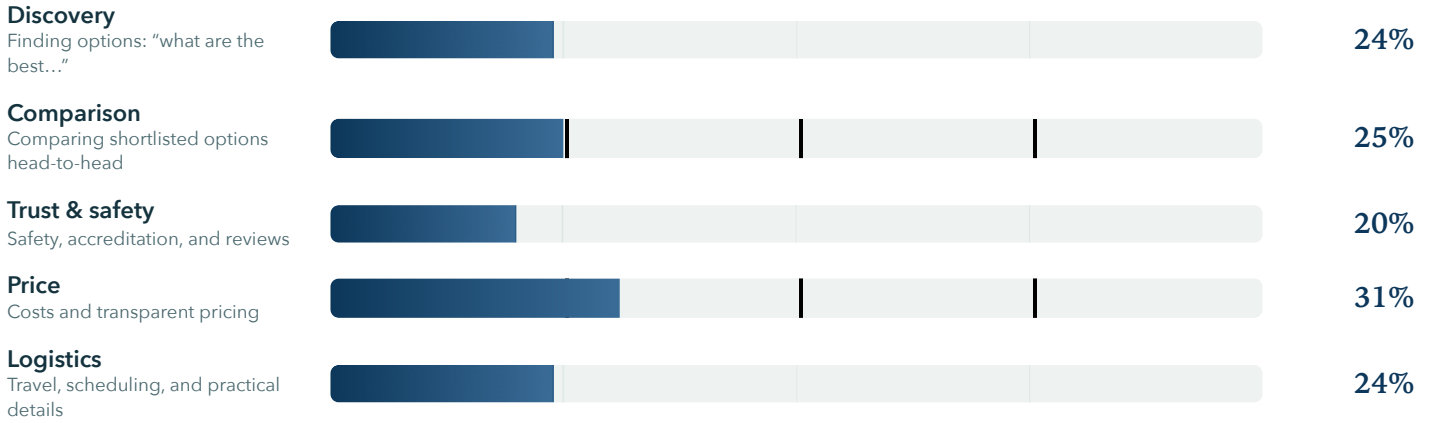

## Logistics – Travel, scheduling, and practical details

- *“I’m flying into Tijuana for dental work — which clinics offer airport pickup and hotel packages? I’d rather not figure out transportation on my own in a city I don’t know.”*
- *“Which dental clinics in Tijuana accept US dental insurance, or at least help you file for reimbursement? I have a Delta Dental PPO plan.”*
- *“How many trips to Tijuana does dental implants actually take from start to finish? Which clinics are best at compressing the schedule for out-of-town patients?”*
- *“What’s the easiest way to get to a dental appointment in Tijuana from the US, and which clinics help with the travel side — parking, border crossing or airport transfers, that kind of thing?”*
- *“My wife is coming with me while I get dental implants in Tijuana. Which clinics are near decent hotels and things to do, so the trip doesn’t feel like a hospital visit for her?”*
- *“I don’t speak any Spanish. Which dental clinics in Tijuana have fully English-speaking staff, from the front desk to the dentist?”*
- *“After getting dental implants in Tijuana, how long do I need to stay in town before flying home? Which clinics have hotel partnerships for the recovery days?”*
- *“How do I set up dental implants at a clinic in Tijuana from the US — do they do video consults first? Which clinics make the remote planning easy, like reviewing your X-rays and quoting before you travel?”*

## 03 Where you appear (and where you don't)

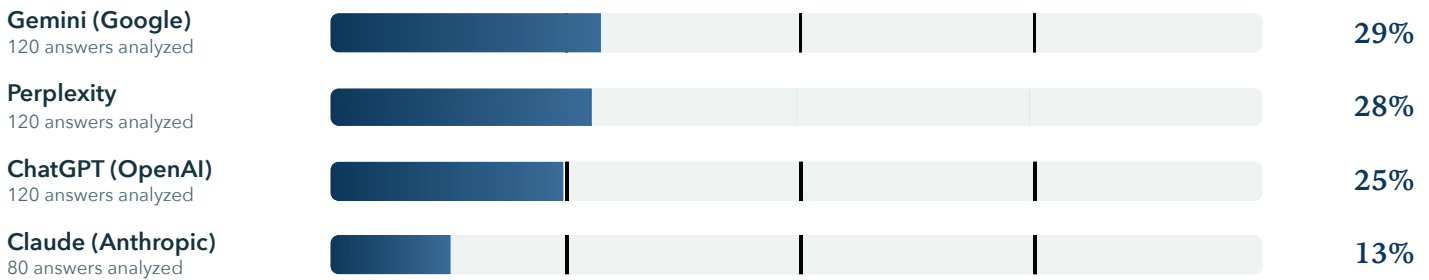

### Your visibility by conversation type

The single most important finding of this audit: AI does not see you as one business – it sees you conversation by conversation. You can dominate one type of question and not exist in another.

### The same questions, four different answers: visibility by AI assistant

Each AI assistant assembles its answers from its own sources – so the same business can be recommended constantly by one assistant and never appear in another. This is where that divergence shows.

### ▮ Red flag: competitor content posing as neutral

These “articles” and rankings are published by your competitors on their own websites – and the AI treats them as neutral sources. When an AI cites a competitor’s “Top clinics” article, that competitor is effectively writing the answer.

## Invisible players competing for the AI’s attention

These businesses were never recommended in any answer – but the AI is reading their websites while composing its answers. They rank for the AI’s research even though they don’t (yet) win the recommendation. They are one good page away from entering the answers – the same move available to you.

#### AI VISIBILITY AUDIT

## 07 How stable are these answers?

We asked every question 3 times per AI assistant, because AI answers are not fixed – the same question can produce a different recommendation minutes later.

**Across repeated asks, the #1 recommendation matched only 40% of the time.** In 158 of 160 repeated questions, the top recommendation changed between attempts.

This is normal: these assistants re-search the web on every question and weigh sources slightly differently each time. It also means visibility is not won once – it moves.

| AI ASSISTANT       | SAME #1 ACROSS REPEATS |
|--------------------|------------------------|
| ChatGPT (OpenAI)   | 34%                    |
| Claude (Anthropic) | 53%                    |
| Gemini (Google)    | 38%                    |
| Perplexity         | 34%                    |

A single snapshot shows where you stand today. Whether you hold or lose ground only shows up by re-measuring over time.

# 08 Action plan

Every item below traces to a specific finding in this audit – a source the AI reads, a claim it repeats, or a conversation you are absent from.

## AI Visibility Action Plan: Northstar Dental

- 1. Correct outdated pricing claims across all engines immediately** – Your pages cite \$8,000-\$12,000 per arch, but current pricing starts at \$6,900. Update <https://northstardental.com/all-on-4-en-tijuana-2025-2026-precio-real-clinicas/> (your highest-cited page at 27 citations) and <https://northstardental.com/all-on-4-dental-implants-cheapest-dentist/> to reflect the \$6,900 baseline. AI assistants repeat what your own site states, so correcting the source stops the repetition across all engines.
- 2. Audit and update all certification and credential claims on your About and service pages** – Your confirmed-wrong claims include outdated certifications and statements about U.S.-licensed dentists, in-house digital lab, CEREC technology, and guaranteed quotes. These claims appear across Gemini, OpenAI, Anthropic, and Perplexity. Review your About page and every service page; either remove outdated claims or replace them with current certifications listed in your actual materials. This affects trust-intent visibility, your weakest intent at 20% (vs. 31% in price).
- 3. Build a dedicated trust-content page modeled on your highest-performing source** – Trust visibility is 5 points lower than price. Your <https://northstardental.com/es-seguro-ir-a-tijuana-por-dientes-2026/> (safety/trust angle, 7 citations across all intents) and <https://northstardental.com/faqs/> (7 citations) work in trust conversations, but competitor-owned editorial domains (northgatedental.com at 179 citations, vistaverdedental.com at 145, cascadedental.com at 145) dominate trust-intent answers. Create a structured page addressing "Are Northstar Dental dentists certified and safe?" and "What credentials do Northstar Dental doctors hold?"—mirroring the questions in competitor editorials—and cite your current, verified credentials explicitly.
- 4. Claim listing slots on Westbrook Dental, Bookimed, WhatClinic, and Reddit** – These four aggregator/UGC platforms are your top citation sources. Westbrook Dental (217 citations) and Bookimed (134) are your top two citation sources overall. Ensure Northstar Dental has complete, verified profiles on [dentaldepartures.com](https://dentaldepartures.com) and [bookimed.com](https://bookimed.com) with current pricing (\$6,900+), certifications, and patient reviews. Post or participate in Reddit threads ([reddit.com](https://reddit.com), 124 citations) in subreddits like [r/Tijuana](https://reddit.com/r/Tijuana) and [r/dental](https://reddit.com/r/dental) to answer questions about your services and address safety concerns directly.
- 5. Develop service-specific pages for comparison and logistics intents** – Your pages perform well in price (27 mentions in price intent, 21 citations), but you are underperforming in logistics (21 mentions, but only 14 citations). Competitors like Lakeview Dental (7 logistics mentions) maintain presence there. Create dedicated pages for "Parking and transportation to Northstar Dental from San Diego" and "Aftercare and follow-up logistics" modeled on your <https://northstardental.com/all-on-4-en-tijuana-2025-2026-precio-real-clinicas/>, which addresses multiple intents including logistics. These topics appear in competitor editorials (e.g., [harborviewdental.com](https://harborviewdental.com), [bellmontdental.com](https://bellmontdental.com)) and should be owned by you.
- 6. Monitor Anthropic (Claude) separately—your weakest engine at 13% visibility** – Three other engines (OpenAI 25%, Gemini 29%, Perplexity 28%) cite you consistently, but Claude lags significantly. Review which of your pages Claude cites vs. competitors. If Claude is pulling from aggregators or competitor editorials instead of your domain, prioritize listing/profile completion on those platforms (Bookimed, WhatClinic, Westbrook Dental) where Claude may source its answers.
- 7. Replace competitor-editorial claims by publishing equivalent content on your domain** – Competitor editorials ([northgatedental.com](https://northgatedental.com), [vistaverdedental.com](https://vistaverdedental.com), [cascadedental.com](https://cascadedental.com)) control the narrative on safety, pricing, and clinic rankings. You cannot pitch or participate in these competitor-owned properties. Instead, publish original, well-structured content on [northstardental.com](https://northstardental.com) for the same topics: "Best dental clinics in Tijuana for U.S. patients," "Is it safe to get

dental work in Tijuana?" (you have <https://northstardental.com/es-seguro-ir-a-tijuana-por-dientes-2026/> but only 7 citations). Expand and promote these pages to compete for discovery and trust intent citations.
